BLACKHEARTS DEAD LEADER SPOTTED!

It is said that they can only kill you once, perhaps in this day and age that isn't so true. It's been reported that ex-Blackheart's Leader Vincent Blackhalve has been spotted in another settlement trying to gain access to an off world shuttle. Vincent was assumed dead after sustaining a wound during a violent battle with The Knights of the Flame who were occupying the local Church of the Redemption at the time.

Witnesses claim that they tried to approach the absent leader only for him to push them away. The Tribune tried to get statements from Blackheart members such as "Posh" John Cook and "Banzai" Pete but neither were available to comment. We were able to secure a comment from Father Jacob of The Knights of

the Flame Redemptionist Crusade who now resides in Dust Falls; "It was only a matter of time before the vermin that is Blackhalve

reappeared. His tainted heretic hide must have been saved by the ruinous powers again. I have dispatched notes to various contacts of The Redemption who will trace him if he makes his way off world. If we meet him here in Dust Falls we will burn his corpse until we truly know he is gone."

Recently Wal's Hole has recovered from the gang war that plagued it 4 years ago with Green Hivers and other settlers returning to the town.

Arbitrator Vaughn from the local Precinct had this to say; "If the Blackheart's wish to

come back to Wal's Hole they had better behave themselves, we no longer want the gang violence here and the Guilders and Arbitrators will not stand for the level of chaos that was brought down by Blackhalve and his grudge with the Redemption." So the question on many lips is going to be, is this a return to the bad old days?

MAYOR CAUGHT IN GANG "DEAL"!

Arbitrators from the Wal's Hole Precinct caught the town's Mayor; Lothar Krieger in clandestine meetings with a known criminal gang "Violencia". When questioned by authorities Mayor Krieger denied allegations that the gang was paying for him to sponsor the gang as Guilders Watchmen; "I have in no way ever ac-

cepted bribes or anything else in favour of votes on the Guilders Watchmen situation. Violencia have simply offered their services and were meeting with me to discuss how they could help locals feel safe." Violencia's Leader Mackey has issued the following statement;

"We are not involved in anything illegal, smear campaigns are all too common when a group sets up to be local watchmen." Whatever the truth is, Mayor Krieger has been put under house arrest until the allegations are proven true or false.

Report by Aldus Cratchitt

BULLET POINTS FROM THE HIVE:

- Sermons given hourly at Wal's Hole Church of the Redemption, mutants and heretics not welcome.
