## VIOLENCIA VIOLATED!?

After the revelations last issue about Mayor Krieger and the Goliath gang Violencia, it seem that they have been spurred into action as if to prove themselves. What happened next surprised all who live in Wal's Hole as the "wannabe" Watchmen found themselves victim of a bloody assault from an unknown Escher gang.

Witnesses claim to have seen the Escher screaming obscenities at the outnumbered Violencia as they exchanges sporadic gunfire. At one point it seemed to be going Violencia's way when a few shots wounded various members of the Escher gang. But it seems that the girls were only playing possum to lure in the hapless Goliaths. Within a few short minutes the girls had made short shrift of Violencia and sent them packing to their hide out. The Escher seemed to come

away without any serious wounds, and none of them were admitted to the local Doc for surgery. Same cannot be said for Violencia who lost one of their juves; Luger to gunfire and Lemansky was badly wounded according to the Doc who helped broker his release from the Escher.

We approached the leader of Violencia Mackey for a comment regarding what happened;

"Damn those sump sucking roaches! Ain't nothing' worse than an Escher who goes to ground playin' dead then turns round an shoot ya! They better watch their backs around Wal's Hole cos we'll find them an their Bounty Hunter buddy and put a new vent in their heads."

We tried to find the Escher responsible for the attack but couldn't find them, some have wondered if this is a

return of The Pink Ladies who appeared shortly 4 years ago but disappeared after Father Jacob and his Knights of The Flame. What is know is that these particular Escher employ Ratskins and Bounty Hunters and have the possibility to be a force here in Wal's Hole.

## REDEMPTIONIST FATHER CANONIZED

Former resident Redemptionist Priest; Father Jacob has been canonized for his "constant vigilance against heretics and vile mutants" a source reported today. The now Arch-Zealot Jacob had been cleansing the badlands of muties and scavvies after the events four years ago. Even to this day there is a small garrison of Redemp-

tionists based here in Wal's Hole, albeit peacefully.

Jacob was seen as a trouble maker by some as he was responsible for several deaths of reported cultists of dark gods and xenos, but he was also responsible for the supposed death of Vincent Blackhalve leader of the Blackhearts which lead to a bitter

enmity and feud between the Redempionists and the gangers.

Both groups moved out of town due to a new stricter Arbitrator coming in from uphive. Arbitrator Vaughn has previously stated that neither groups are welcome in Wal's Hole.
