## FRESH FIGHTING SPARKS FEARS

Fresh fighting has broken out in Wal's Hole this week with more members of the House of Escher clashing with members of House Delaque. The combatants are not known at this time and no gang mark-

ings have been found.

On both occasions the Escher managed to put down the desperate Delaques who then fled to one of the small settlements that circle the town. The Escher themselves have been seen around town but are generally unapproachable by this reporter, all we were able to get from them was; "buzz off creep!" as well as a spat of other expletives.

It is to be noted that these Escher are not of the Pink Ladies who seemed to make an appearance a few month back whilst fighting local

thugs Violencia. It also seems that the leader of Violencia; "Mackey" has been very vocal about more of House Escher arriving in town, he's been quoted as saying; "Damn girlies thinking they can come into my town and kick up a stink? I'll sure as hell make sure they are eating sump real soon!".

Whatever happens once again things look bleak for the citizens of Wal's Hole and like recent history we'll have to batten down our holesteads to avoid becoming victims in the ongoing gang war.

## NEURON PLAGUE SWEEPS WOL-V35

Arbites have reported that the WOL-V35 sector has been closed to all following a mass outbreak of Neuron Plague, also known as the Zombie Plague.

Arbite Hammer told us; "The sector is officially closed to all citizens due to the outbreak of the plague. Anyone caught trying to break into or leave WOL-V35 will be shot on sight and incinerated immediately. If you had family or friends there do not, I repeat do not try to contact them. If they have recently turned up in your town or sector and are showing signs of illness, please quarantine your home. Do not leave and contact your local Arbitre precinct who will be along shortly

to help you."

The reason for the outbreak is unknown, some have placed blame squarely on the shoulders of Scavvies whereas others have blamed Redemptionists for releasing it so they have a reason to operate in

those areas. Whatever the reason is please follow the Arbitre's instructions carefully as it could save you and your family as well as your town.
